

BACK TO SCHOOL IMMUNIZATION CLINICS

The Saline County Health Unit will have 2 full day immunization-only clinics this summer/fall. Immunizations are by appointment on these days.

- Monday, July 29 9:30am—5:00pm (Late clinic)
- Thursday, August 29 8am—4:00pm

The health unit will continue to provide immunizations during our regularly scheduled general clinics Monday-Friday by appointment. Appointments are based on availability.

****Visits for new students/students who have never received vaccines in AR will require longer appointments. Please bring up-to-date immunization records to the health unit before your appointment if possible so the immunization registry can be updated. If you do not have a record, a letter from your school nurse with the vaccines that your child needs is also acceptable. ****
